

people in it. In 1998 alone, Idaho exported nearly \$25 million worth of merchandise to China. And in the agricultural sector, we exported \$833 million to China.

Future gains are almost certain under the terms of the bilateral agreement and China's WTO accession. Upon accession to the WTO, China's average tariff rate of 22 percent will drop to 17 percent for most products. In the agricultural sector, the reduction is even more significant. The average 31 percent tariff will be reduced to 14 percent for agricultural products on average.

In fact, Goldman Sachs estimates that passage of PNTR will increase U.S. exports to China by \$12.7 billion to \$13.9 billion by the year 2005.

□ 2030

Although there have been some statements to the contrary that the U.S. can reap all of the benefits of this bilateral agreement when China accedes to the WTO, the fact is that cannot happen unless PNTR is granted to China. That is because one of the cornerstones of the WTO is the concept of unconditional most favored nation or normal trade relations between WTO members.

In the agricultural area, PNTR wheat producers believe that they will see an increase of 10 percent sales to China with PNTR. In fact, the increase of sales of beef will increase even more, I believe, as the current tariff rates are reduced from their current level of 45 percent to 12 percent by the year 2004. China will also eliminate its export subsidies upon WTO accession.

The U.S., and this is important to remember, Mr. Speaker, the U.S. is not required to change any of its market access commitments to achieve all of these benefits. In the high tech sector in Idaho, which is a growing industry in Idaho, the current duties on information technology products such as computers, electronics, fiber optics, cable and other telecommunication equipment currently average 13 percent but will be eliminated by January 1, 2005. In addition, trading and distribution rights for IT products will be phased in over 3 years. This means that companies in my congressional district, such as Micron and Hewlett-Packard, will be able to build upon their current exports to China which currently average around 6 percent. Mr. Speaker, this is a very important vote for Congress. I understand and agree with the concerns of my colleagues with regards to human rights in China. But I believe that we will change China more by being engaged with China rather than standing back and throwing stones. In fact, it was interesting. Today I had several students from Taiwan in my office. One would think that Taiwan would be opposed to accession of China into the WTO because of the aggressive nature that China has expressed toward Taiwan but these students told me, and I have confirmed with the President elect of Tai-

wan that they support accession of China into the WTO because they believe that active engagement with China will make China more like Taiwan and will free Taiwan and make them more economically free.

Mr. Speaker, this potentially is the most important vote that we will cast in this Congress. I urge my colleagues to support PNTR for China.

TRIBUTE TO THE LATE JOSEPH L. MOORE, DIRECTOR OF CHICAGO VA HEALTH CARE SYSTEM

The SPEAKER pro tempore (Mr. SHERWOOD). Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, I rise to pay tribute to a man who could be called the personification of a smooth, effective and loyal bureaucrat but also a dedicated protector and promoter of health care for veterans. Joseph L. Moore began his career with the Veterans Affairs Department as a clerk typist but ended it as director of the Lakeside and Westside Veterans' Administration Hospitals in Chicago, Illinois.

Born in Ripley, Tennessee and raised in St. Louis, Missouri, Mr. Moore worked with the Department of Veterans Affairs for more than 40 years. He came to Chicago in 1979 to take over as director of the VA Lakeside Medical Center. He became director of the Chicago VA Health Care System in 1996 when Lakeside administration merged with the Westside VA Medical Center. He was instrumental in facilitating the merger. That will stand as one of his final achievements in the Veterans' Administration. This merger is reported to have saved millions of dollars for U.S. taxpayers.

When Mr. Moore came to Lakeside, the hospital was in need of strong leadership, which he provided. He redid Lakeside and turned it around so that the veterans and their families could be well received and well treated. Just before his death, Mr. Moore was scheduled to receive an award from the Chicago Federal executive board for distinguished services. He served two terms as chairman of the Chicago Federal executive board.

Over 40 years, Joseph Moore championed quality health care services for all veterans. His commitment to the veteran community was without reservation. His integrity and intellect gained him the respect of medical professionals throughout the world. In every endeavor, he demonstrated exceptional leadership, professionalism and dedication to the public and to Federal employees.

Mr. Moore received the Distinguished Executive Presidential Rank award, the highest award given to a civilian employee of the Federal Government, from President Ronald Reagan. He was also the first nonphysician to receive the Distinguished Service award from Northwestern University's Department of Medicine.

He dedicated his life to providing good health care for veterans. As director of Lakeside Medical Center, Mr. Moore was a member of the board of directors for Northwestern University's McGaw Medical Center.

He leaves a legacy of dedication and service to veterans. I am pleased to have known and to have worked with him as he went about the business of protecting and promoting the highest level and quality of health care for men and women who had dedicated and given their lives in the service of this country.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. WALDEN) is recognized for 5 minutes.

(Mr. WALDEN of Oregon addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

PNTR FOR CHINA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. ETHERIDGE) is recognized for 5 minutes.

Mr. ETHERIDGE. Mr. Speaker, the vote on permanent trade status for China is vital to our technology and small business interests in North Carolina, but it is particularly important to North Carolina agriculture, so I am glad this evening to come and join a number of other colleagues and talk about this issue. In 1998, North Carolina ranked 11th among the 50 States in the value of agricultural exports totaling \$1.5 billion. These exports supported about 22,800 jobs both on and off the farm in our State.

Our State's largest agricultural export, of course, in North Carolina is tobacco. In 1998, North Carolina exported \$573 million worth of tobacco leaf. It has been estimated that if flue-cured tobacco farmers could capture just 1 percent of the Chinese market, that is 1 percent, and 1 percent of the manufacturing in China was comprised of American flue-cured tobacco, the stocks in Stabilization would cease to exist and quotas would rise for our farmers.

The North Carolina Rural Prosperity Task Force that was chaired by Erskine Bowles estimated that if China would give our farmers fair access to their markets, North Carolina exports of flue-cured tobacco would increase by as much as 10 percent right away. After suffering a 50 percent loss in income due to quota cuts during the past several years, such an increase would be welcome news to many struggling farmers and their families and to tobacco industry workers in our State and other States.

Today China's tariff that is imposed on tobacco is currently 40 percent. Once China joins the WTO, it would drop to only 10 percent by 2004. The tariff on tobacco products will fall
